In formulating the 2022 evaluation criteria, the scoring items were reviewed in consideration of the discussions at the Disclosure Working Group of the Financial System Council and recent trends in IR sites. Under such circumstances, JVCKENWOOD continued to meet the evaluation criteria set by Daiwa IR in 2022 for the fourth consecutive year, and received the Commendation Award, in which companies with an overall score of 70 points or higher are selected as candidates.

JVCKENWOOD will continue to work to deepen the understanding of its shareholders and investors through the further enhancement of corporate information, including IR information on the company website, and appropriate information disclosure.
